*Marine Safety Information Bulletin 05-04
New Electronic Notice of Arrival /Departure
Beta Version*

March 30, 2004

The USCG National Vessel Movement Center (NVMC) has released the beta version of the XML schema for the Electronic Notice of Arrival/Departure. The relevant files can be found at: <http://www.nvmc.uscg.gov/download.html>>. This version includes the fields necessary to meet both USCG (33 CFR Part 160) and USCBP (19 CFR Part 4) requirements. The schema is being provided now in order to allow industry developers time to incorporate USCG and USCBP reporting requirements into their business processes, if they so desire. **The NVMC is not yet ready to accept submissions based on this schema.** The implementation date will be announced in the near future.
